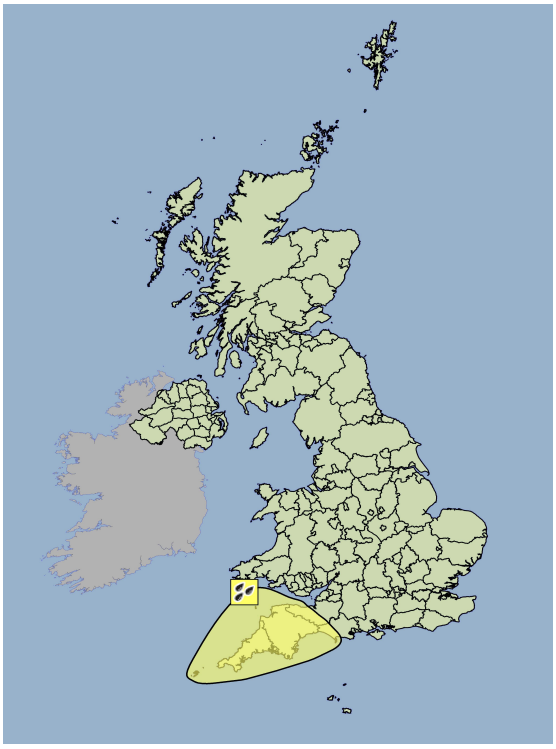
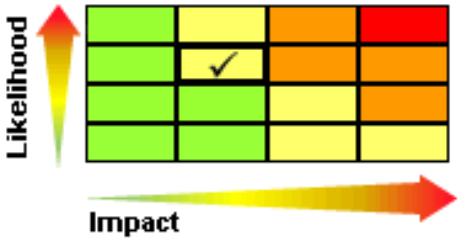
National Severe Weather Warning Service





Chief Forecasters Assessment
Another active Atlantic frontal system is expected to swing eastwards across UK on Sunday night and Monday morning. A combination of strong winds and very moist air will give locally significant accumulations over windward coasts and upslopes, The wind and rain will clear quickly eastwards during Monday morning.

The Met Office have issued a **Yellow Alert** of **Rain**

Valid from **00:05 on Mon, 30th Dec 2013** until **09:00 on Mon, 30th Dec 2013**

Further rain, heavy at times, is expected to spread quickly eastwards across southwest England on Sunday night and into Monday morning. Rainfall totals are expected to be widely 15 to 20 mm, but as much as 40 to 50 mm over windward coasts and hills. With ground already saturated over much of this region, the public should be aware of the risk of further local flooding. In addition to this rain, strong winds - gusting up to 60 mph over more-exposed locations - will accompany the rain.
